S6655-1

STATISTICS OF
MOTOR CARRIER OPERATIONS
1979
CLASS I, II, III & IV

STATE OF OREGON
John J. Lobdell
Public Utility Commissioner
Salem, Oregon

GENERAL SUMMARY

The Oregon motor carrier statistical report for year 1979 includes 480 reporting carriers, and is arranged according to system revenue levels and primary operating authority designations. The 1979 statistical report includes:

Section I — Motor carriers of property with revenue levels of $250,000 or more (Class I, Class II, and Class III). Property includes general commodities, heavy haul items, bulk commodities, household goods, local cartage, and parcel.

Passenger carriers with revenues of $100,000 or more.

Section II — In general, Class IV commodity carriers and Class III passenger carriers of less than $250,000 and $100,000 annual operating revenues, respectively.

As a result of the Interstate Commerce Commission redesignation of reporting classifications, PUC Ore. 80-179, entered March 10, 1980, amended Rule 860-38-091 of the Oregon motor carrier rules and regulations for purposes of prescribing and adopting uniform systems of accounts to be maintained by common and contract motor carriers. Under amended Rule 860-30-091, carriers shall be classified by total annual gross interstate and intrastate operating revenues as follows:

A. Classification of Carriers of Property.

(1) Class I - Common and contract motor carriers of property having average annual gross operating revenues of ($3) $5 million or more from property motor carrier operations.

(2) Class II - Common and contract motor carriers of property having average annual gross operating revenues of ($500,000) $1 million but less than ($3) $5 million from property motor carrier operations.

(3) Class III - Common and contract motor carriers of property having average annual gross operating revenues of ($100,000) $250,000 but less than ($500,000) $1 million from property motor carrier operations.

(4) Class IV - Common and contract motor carriers of property having average annual gross operating revenues of less than ($100,000) $250,000 from property motor carrier operations.

B. Classification of Carriers of Passengers.

(1) Class I - Common and contract motor carriers of passengers having average annual gross operating revenues of $1 million or more of revenue from passenger operations.

(2) Class II - Common and contract motor carriers of passengers having average annual gross operating revenues of $100,000 but less than $1 million of revenue from passenger operations.

(3) Class III - Common and contract motor carriers of passengers having average annual gross operating revenues of less than $100,000 from passenger operations.

Rule 38-091, as amended, will be applicable to the entire 1980 reporting year. The Oregon determination of the carrier classification regarding motor carriers of property is based upon the average system operating revenues over the past three reporting years. The classification of motor carriers of passengers remains unchanged from the past reporting requirements under the amended rule.

SECTION I: SYSTEM OPERATING RATIOS OF DESIGNATED CARRIER GROUPS (1979)

	System Operating Revenues	System Operating Expenses	System Operating Ratio
General Commodities	$2,405,123,656	$2,314,601,784	96.24%
Heavy Haul	6,923,263	6,726,764	97.16
Bulk Commodities (Note 1)	66,448,489	65,123,166	98.01
Household Goods (Note 2)	49,699,308	51,678,128	103.98
Local Cartage and Parcel (Note 3)	13,317,978	13,102,912	98.39
Other Authority	282,023,504	275,079,780	97.54
Passenger Carriers (Note 4)	9,117,098	8,541,054	93.68
Total All Groups	$2,832,653,296	$2,734,853,588	96.55%

Note 1. Excludes Matlack, INc.
2. Excludes Aero Mayflower Transit Co. and North American Van Lines, Inc.
3. Excludes United Parcel Service, Inc.
4. Excludes Greyhound Lines, Inc. (Western) and Trailways, Inc.
